RTO Software	TEAMS	✓	✓	✓	✓		✓	✓	✓	✓	8.0		RTO Software provides TEAMS an online student management system that allows RTOs and ELICOS providers the ability to track and manage data for the entire lifecycle of a student. From managing applications and issuing Offer Letters with the built in CRM features, to managing compliance requirements for course progress and attendance for students and their enrolments all from the one system. The system can be used by a new RTO start up or an established RTO with thousands of current students. It allows for growth as you grow and there is no limit on student or enrolment numbers. It is fully integrated with student and agent financial management with APIs for Xero, MYOB as well as its own LMS and integration with Moodle. With over 25 years+ experience building student management systems and working with RTOs, we know that quality is better than quantity. We do detailed, personalised implementation and onboarding like no one else in the industry. We are a boutique provider that believes in quality and attention to detail and building long term relationships.
